Non-lighted Bollard Ordering Sequence

BOLLARD — TOP — OPTIONS — COLOR
B610— B — EB2 — RAL 9011

B610 SERIES NON-LIGHTED BOLLARD

SPECIFICATIONS

DESCRIPTION: The bollard shall be HCI's _____ (indicate model number, see *Ordering Sequence Example* above). The bollard shall be made from aluminum 6"OD body with a welded aluminum base plate. A two-piece cast aluminum base cover shall be secured with stainless steel hardware. The lighted bollard shall be equipped with a fixture head on top with a choice of light sources and optical systems. The head shall be secured with four s/s head socket screws. The non-lighted bollard shall be equipped with a decorative cast top, which shall be permanently welded to the bollard.

MATERIALS: The bollard, including the base covers, shall be made from cast aluminum. The castings shall be of uniform wall thickness with a minimum wall thickness of 0.200".

INSTALLATION: The bollard shall be provided with four 3/4"OD x 17"L L-type anchor bolts with two nuts and two washers per bolt, installed on an 8-1/2" bolt circle. A sturdy steel template is included.

FINISH: All applicable parts shall receive a standard electrostatically applied thermoset polyester powder coat smooth semi gloss finish with a four part corrosion inhibiting process.

COLORS: The five standard RAL colors are Black 9011, Green 6005, Bronze 8019, Grey 7012 and White 9016. Other colors extra.

OPTIONAL TOPS

- A** Pineapple
- Q** Half ball
- B** Ball
